

Playing Guidelines - Rotary Highland Outdoor Courts

Physical distancing is to be followed at all times when at the courts, and waiting for courts.

Singles play only. Doubles play permitted if partners live in same household.

Playing time is for one hour, and is measured at the top for the hour.....10:00am, 11:00 am, 12:00pm, 1:00pm etc.

If you are playing and there are people waiting to play at the top of the hour, you should vacate the court. If all of the courts are not filled at the top of the hour with new games, players that were playing before the top of the hour can use the vacant court(s).

Games that were playing for the least amount of time heading up to the top of the hour will have first priority for an open court.

Players that were playing for longest period will have last priority.

A person may not hold a court while waiting for their playing partner to show up.
